## SOCIAL CHANGE PROJECTS

Women United transforms communities by addressing generational poverty.

### Community Baby Shower

Choosing between diapering your baby and putting food on the table is a choice no parent wants to make, but one in three do. The Community Baby Shower works to fulfill the baby wellness item gap between SNAP and WIC and provide babies the products needed for a healthy start in life.

### Read to Succeed

- Low income students are less likely to read at grade level. The Read to Succeed Project works to create safe environments through the introduction of pocket libraries where elementary school children will be encouraged to learn how to read, enabling future learning and success in school.
